UBIC Vehicle Solutions Inc. / Innovative Vehicle Solutions for Small Business in Canada

The Paperless Press Richmond Hill Ontario CANADA

Release Immediately June 2009

Peter Scully is pleased to announce the formation of UBIC Vehicle Solutions Inc., a new automotive business dedicated to assisting consumers and small business with their specific vehicle requirements in Canada. UBIC's unique approach to the automotive business will allow clients the opportunity to acquire, finance and remarket vehicles used for their business from a single source.

UBIC is a group of very experienced automotive professionals, each bringing with them a whole host of resources that will assist in meeting the expectations and results that small business owners will be looking for. The once complicated, time consuming and costly task for small business owners to satisfy the vehicle needs of their business can now be confidently handled through a single company and in-turn save money.

How UBIC is able to provide complete services and savings to its clients is through the contact base they have developed, working with finance and leasing companies, auction facilities and a network of independent dealers and associates.

Being an independent company, UBIC has no affiliation with any automotive manufacturer or finance company. This simply means that what works best solely influences any recommendation UBIC provides to its clients.

Regardless the size of a fleet UBIC is able to handle any request, and as required, providing a detailed report showing descriptions, terms and price quotations. The UBIC staff and associates are dedicated to serving their clients with the best service and best practices any time they have a need to acquire, finance or re-market their vehicle fleet, while striving to reduce their operating costs.

"We did not know such a complete service was available. We have been spending many unproductive hours researching, visiting dealers, and negotiating price and trade values. We still end up not sure if we made the right decision for our business. UBIC Vehicle Solutions did the leg work for us and presented a concise report upon which we made a knowledgeable decision. "
J.F. Richmond Hill, Ontario

"I have been doing business with the same manufacturer /dealer for years. I am sure some of the decisions on our business vehicles have been influenced by this relationship. They may not have been the best for my business bottom line, especially now that I have partners. UBIC Vehicle Solutions Inc. will allow us to map our vehicle requirements in an unbiased, efficient and cost effective manner." P.C. Toronto, Ontario

"I have always had a problem disposing of my business vehicles and had only limited resources to determine if I was getting fair value. UBIC Vehicle Solutions Inc. provides many options to dispose of out of service vehicles. They use their many resources and experience to ensure I receive the best value for these vehicles let alone the time I saved in the process" D.R. Etobicoke, Ontario

UBIC Vehicle Solutions Inc. is located at 30 Via Renzo Drive, Suite 200. Richmond Hill, Ontario. L4S- 0B8.
